

MM SOLUTIONS

YOUR TRUSTED **MARKET MAKER**

"Empowering Growth Through
Strategic Collaboration"

MARKET OPPORTUNITIES

CURRENT NORMS:

- The market currently relies heavily on centralized MM solutions.
- 3rd party MM dominate & control liquidity for their own interests.
- Project owners generally don't trust conventional MM to perform market making.
- Project owners are required to pay quarterly subscription fees or token load models.
- Conventional MM actively work to clear legal and operational concerns for their services.

Before MMSolutions

After MMSolutions

TARGET MARKET + CHALLENGES

INITIAL CLIENT PROFILES:

Targets projects that have launch for 3-6 months.

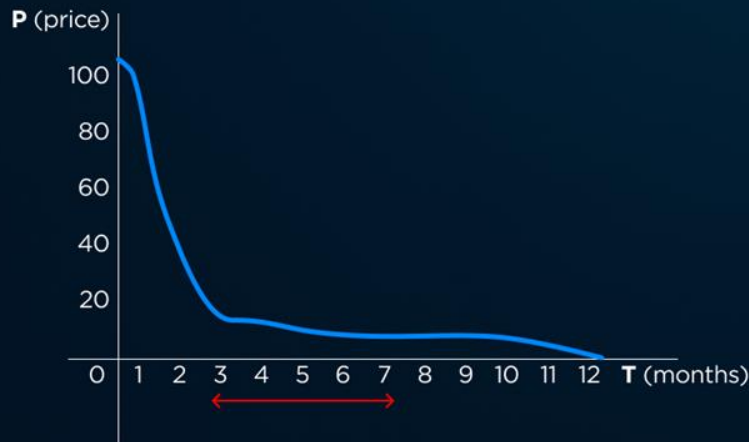

- Facing liquidity and investor confidence challenges.
- Delisting danger
- Beyond top 300 tokens

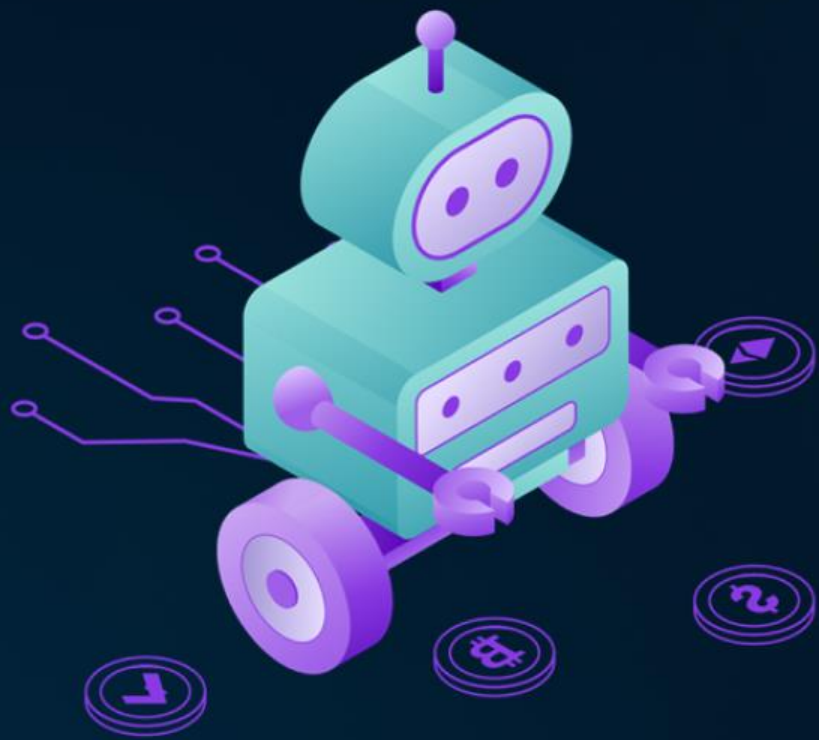

SIMPLIFIED PROJECT MARKET MAKING:

MMSolutions enables non-IT, non-trading staff to engage in MM effortlessly with intuitive tools and guides.

LEGAL RISKS:

Traditional market makers expose projects to legal risks tied to market manipulation accusations.

HOW DO WE
REVOLUTIONIZE
MARKET MAKING
FOR SUSTAINED
GROWTH?

PRE-BUILT STRATEGY CATEGORIES

VOLUME STRATEGY:

- Algorithmic strategies play an active side in contributing to trading activity.

ORDER BOOK STRATEGY:

- Keeps the market active on order book exchanges by contributing to a dynamic order book with continuous trading activity.

PRICE STRATEGY:

- Focused directional trading, being more aggressive on either buying or selling, based on a specific market outlook.

LUCK

EMERGING PROJECTS FUNNEL

Partnership with Launchpad, CEXes, chains & Incubator

Workshops & speaking opportunities on how to navigate a successful TGE

Price strategy to help win over projects to choose MMcloud

ESTABLISHED PROJECTS FUNNEL

Partnership with CEXes & chains.

Speaking opportunities and pitch on how why MMaaS over traditional MMs.

Narrative on regaining FULL control over token price action.

BUSINESS MODEL

Team Token Distribution

Target to grow big in the weekly proposals and community pool.

Direct MMS Sales

Plan for revenue growth through sales of subscriptions and services.

DePIN Revenue

Generate income through staking rewards and tokenomics.

OTHER PROJECTS

- Engineered MM strategies that yielded a project's token price to surge 5x at the TGE, underscoring our expertise in liquidity management.
- Implemented a dynamic MM plan that drove another project's token value to soar 100x at TGE, highlighting our capacity to dramatically boost market engagement and investor confidence.

COLLABORATION OPPORTUNITIES

ENCOURAGE ONBOARDING:

- Early adopter programs: Such programs where early users gain access to beta features, reduced rates, and direct input into product development.
- Token Performance Challenge: Where early adopters can earn more tokens with lower mining difficulties based on their MM performance on MMSolutions.

DIVERSIFYING REVENUE STREAMS:

- Team Token Distribution: Target to grow big in the weekly proposals and community pool.
- Direct MMS Sales: Plan for revenue growth through sales of subscriptions and services.
- DePIN Revenue: Generate income through staking rewards and tokenomics.

OPTIMIZE PROFITS:

- Focus on expanding community pool sizes, strategically growing the user base into DePIN and market neutral strategies narratives and upselling advanced features.

PARTNER WITH INDUSTRY LEADERS:

- Give out MMBox to leading projects for free in the current hot market which has a lot of SNS followers from other projects and VCs.

WHY CHOOSE MMSOLUTIONS?

ENHANCED LIQUIDITY:

Ensure sufficient liquidity for JobCoin on exchanges

PRICE STABILITY:

Maintain a stable and attractive order book to prevent price manipulation and foster investor confidence.

MARKET PRESENCE:

Boost JobCoin's visibility and trading volume across various platforms.

COLLABORATION OPPORTUNITIES

We propose a partnership that includes:

- Offering 4th month waiver to jobchain, if they avail our market making services for 3 months
- Mutual Referrals: JobChain will refer clients needing market making services to us. we will post job openings on JobChain when we need resources or wish to outsource tasks.
- Educational Content: Create educational content explaining market making benefits and JOB token utility.
- DEX Institutional Custody: We propose to become your trusted advisors, providing expert guidance and support in maintaining and optimizing your liquidity pools on decentralized exchanges (DEXs).

Benefits for JobChain

- **Enhanced Liquidity and Stability:** Through our expert advisory services.
- Expanded Job Opportunities: By partnering with us for market making related job referrals.
- Increased User Engagement: Through educational content that adds value to your platform.

TOKENOMICS

APPENDIX

MMCLOUD

A top-up charge model with deductions; enjoy free service for the 1st to 4th months.

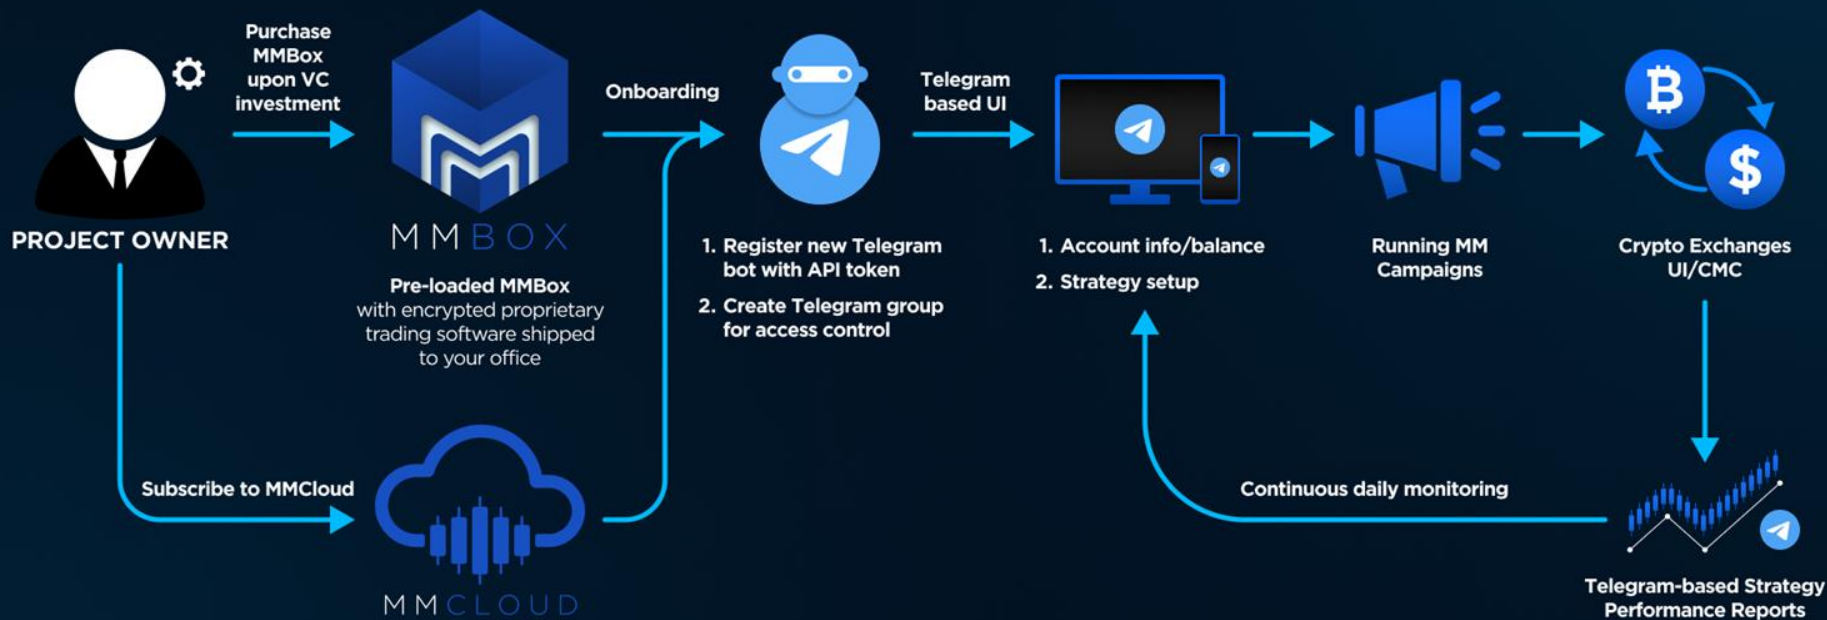

MMBOX

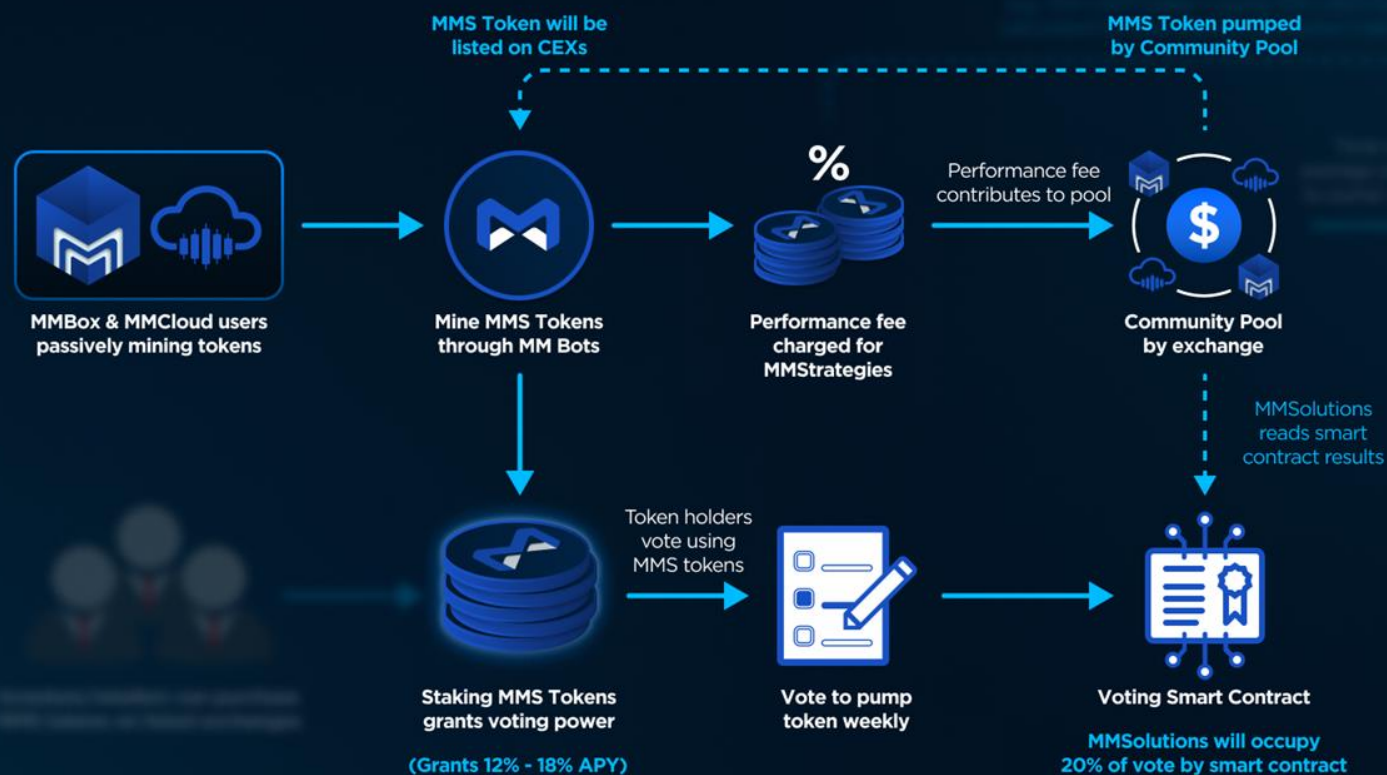

Pay a deposit upfront, returned after 6 months if activity thresholds in MMSolutions ecosystem are met.

- **Revenue Share:** Distribute MMS tokens with 20% for KOLs, and 20-80% each for traders/operators and project owners.
- **Global Power Allocation:** Start with 20% global power, reducing progressively in alignment with DAO decisions.

USER JOURNEY (MMBOX + MMCLOUD)

WHY HOLD TOKENS?

HOW DOES PUMPING WORK?

HOW DO YOU COLLECT USDT?

e.g. 700 USDT/week = pump 100 USDT/day
calculated by order placed via market making

e.g. on a weekly basis, will deduct
700 USDT to put to KuCoin Exchange
API to buyback seller tokens

Performance fee
charged for
MMStrategies

Performance fee is
calculated by significant
price change/volume

Community Pool
by exchange

e.g. if a project token is
listed on KuCoin Exchange,
we recommend having
5000 USDT on each side

See pump results
through market
